Felix

# Introduction

Felix the Cat is a beloved cartoon character known for his mischievous and imaginative adventures. Created by Pat Sullivan and Otto Messmer, Felix made his debut in 1919, making him one of the oldest cartoon characters in history. He initially appeared in silent films and later transitioned to sound cartoons, becoming one of the first animated characters to achieve widespread popularity.

Felix is characterized by his black body, white eyes, and large grin. He has a magical bag of tricks that he can pull seemingly endless items from, which he often uses to solve problems or create humorous situations. Throughout his animated career, Felix has appeared in various television series, comic strips, and merchandise, solidifying his status as an iconic figure in animation history. His simple yet charming design and inventive storytelling continue to captivate audiences around the world.

# \$Felix On Base Chain

Felix on Base is a meme coin that made its debut on June 24th via BaseJump. The team who designed the meme sold at \$37.5k market cap and left Felix to go to zero. This however was short-lived once the community decided to takeover.

Felix on base is a meme cryptocurrency, often referred to as a "meme coin," it's a type of cryptocurrency that is created primarily as a joke or for entertainment purposes, rather than for serious technical or financial innovations.

# Characteristics Of \$Felix On Base

Felix is traded on Base Chain, which is a Layer 2 blockchain developed by Coinbase. Layer 2 solutions are designed to improve the scalability and efficiency of Layer 1 blockchains like Ethereum by handling transactions off the main chain and then settling them on the main chain. Base Chain aims to provide faster and cheaper transactions while maintaining the security and decentralization of the underlying blockchain.

\*200,000,000 Circulating supply at launch

\*50,000,000 Burnt

\*Renounced safe launch contract via BaseJump

When trading Felix on Base Chain, users benefit from:

- Lower Fees: Base Chain's efficiency reduces transaction costs.
- Faster Transactions: Off-chain processing speeds up transaction times.
- Security: Transactions are eventually settled on a secure Layer 1 blockchain, typically Ethereum.

In summary, Felix is a meme coin that gains value through community engagement and is traded on Base Chain, a Layer 2 blockchain by Coinbase, which offers faster and cheaper transactions.

# The CTO

The community collaborated to re-launch \$Felix on Base Chain. This effort was orchestrated by assembling a team of talented and experienced individuals with strong backgrounds in cryptocurrency and meme coin projects, and a proven track record of successful new launches and CTO management.

The CTO team revitalized social media presence by creating a new website, Twitter handle, and Telegram channel.

Additionally, they updated DexScreener and utilized paid services on DexTools to initiate and promote the \$Felix effectively.

# The Future for Felix

The CTO is committed to the success of \$Felix on Base Chain, ensuring that every action is executed with the utmost professionalism.

To foster community growth, the Felix website now features a playable version of the 'Felix The Cat' Nintendo game, with regular top score tournaments to be held within telegram to enhance engagement.

Additionally, the Telegram group will host meme contests and various other competitions to earn \$felix or dollar value.

Future NFT releases will further boost engagement with Felix and provide funding for additional marketing initiatives, driving our global exposure on BaseChain.

The CTO has developed a clear roadmap, now available on the Felix website, outlining plans for future listings of Felix on platforms such as CoinGecko, CoinMarketCap (CMC), and more.
